

**Table Showing the Annual Number of Trips Generated by the Proposed Project,  
Alternative 5, and Alternative 7**

	Maximum number of attendees and staff allowed at new weekend evening activities	Maximum Number of New Weekend events per year	Trips per year <sup>1</sup>
Original Project Proposal	300	75	22,500
Alternative 5	275	52	14,300
Alternative 7	250	7	1,750
	200	9	1,800
	150	8	1,200
	100	3	<u>300</u>
			Total: 5,050
10 single-family homes <sup>2</sup>	NA	365	36,500

Notes

1 - the trips per year are calculated at an average rate of two people per year. One visit to the site equals two trips (one trip coming and one trip going).

2 – trips for single family homes are calculated at the normal average rate of 10 trips per day per residence. This is the number of homes on Reedland Woods Way.
